The
Suez Canal Authority,
Ismaelia
Egypt

The hundredth anniversary of the death of the author of the carried out plan of the Suez Canal "Alois Negrelli Ritter von Moldelbe" lets the Vienna Technical Museum (Research Institute of Technical History) hold a memorial lecture on Sunday (weekly lecture day) October 5th. Supposing that the memorial tablet referring to Negrellis Suez Canal-performance still exists (at Cairo, Port Said, Alexandria or elsewhere), the Vienna Technical Museum would like to show to the lecture audience a picture of this tablet and takes the liberty to request you to let it have a tablet-photo. Should the photo reach Vienna later than the date of the lecture, the Vienna Technical Museum would welcome the photo as a completion of its rich Negrelli-archiv.

Assuring you that the Vienna Technical Museum would be glad to be of any service to you

very sincerely yours
